6. Points and Rankings

Picks are entered for each game in a round. 1 point is awarded for picking the winner of the match.

If the match result is a draw, no points are awarded for picks in the match.

A bonus (1) point is awarded for picking a perfect round.

A margin score is required to be entered for one match in each round. The margin represents the amount that you predict your selected team will win by. Your margin score will be used to determine the winner of a round or the entire contest if the scores are equal. The lower your margin score the better the entrant is deemed to have performed.

Calculating Margins

If the team you pick wins the match, your margin score is the difference between the actual margin in the Full Time Score that the team you picked won by, and the margin you entered. For example, if you picked the Broncos in the following scenario:

Full time score Broncos 54 vs Cowboys 6

Margin entered 36

Actual Margin 48

Margin Score $48 - 36 = 12$

If the team you picked loses the match, your margin score is the actual margin plus the margin entered. For example, if you picked Cowboys for the same scenario:

Full time score Broncos 54 vs Cowboys 6

Margin entered 6

Actual Margin 48

Margin Score $48 + 6 = 54$

If an entrant does not submit a pick for a game, they are assigned the away team as their pick for that game.

If an entrant does not submit any picks for a round, they receive a 1-point penalty.

Points awarded to entrants will be aggregated at the completion of each round during the contest, and entrants will be ranked in accordance with the points they scored and their margin score for the round.

The points and margin scores awarded to entrants for each round will accumulate throughout the contest. The rankings for the whole of the contest will be used to determine the winners of the First, Second, Third place Prizes in accordance with clause 7 below.

7. Determination of winners

To be eligible for any prizes, the registered entrant must be an approved accredited broker/introducer with Aquamore Finance.

Approved accreditations can be requested and approved up until and including 1st June 2024 to become fully eligible after initial registration for season contest opening.

The margin score will be used to determine the winner of a round or the overall contest if the scores are equal. For example, if two entrants share 1st place on 100 points, the entrant with the lowest margin score will be the winner.

Should scores &/or margin scores still remain equal after above has been calculated, the specific prize amount for that position, will be equally shared. E.g., If two entrants upon all points & ranking calculations have been completed for first place, then the first-place pool only will be equally divided & shared.

If entrants cannot be split using these methods, then the prize pool for that placing will be split equally and shared.
