6. Points and Rankings

Picks are entered for each game in a round. 1 point is awarded for picking the winner of the match. If the match result is a draw, no points are awarded for picks in the match. A bonus 2 points is awarded for picking a perfect round.

A margin score is required to be entered for one match in each round. The margin represents the amount that you predict your selected team will win by. Your margin score will be used to determine the winner of a round or the entire contest if the scores are equal. The lower your margin score the better the entrant is deemed to have performed.

7. Calculating Margins

If the team you pick wins the match, your margin score is the difference between the actual margin in the Full Time Score that the team you picked won by, and the margin you entered. For example, if you picked the Broncos in the following scenario:

Full time score Broncos 54 vs Cowboys 6
Margin entered 36
Actual Margin 48
Margin Score $48 - 36 = 12$

If the team you picked loses the match, your margin score is the actual margin plus the margin entered. For example, if you picked Cowboys for the same scenario:

Full time score Broncos 54 vs Cowboys 6
Margin entered 6 Actual Margin 48
Margin Score $48 + 6 = 54$

If an entrant does not submit a pick for a game, they are assigned the away team as their pick for that game. If an entrant does not submit any picks for a round, they receive a 1-point penalty.

Points awarded to entrants will be aggregated at the completion of each round during the contest, and entrants will be ranked in accordance with the points they scored and their margin score for the round. The points and margin scores awarded to entrants for each round will accumulate throughout the contest. The rankings for the whole of the contest will be used to determine the winners of the First, Second, and Third Place Prizes in accordance with clause 7 below.

8. Determination of winners

The margin score will be used to determine the winner of a round or the overall contest if the scores are equal. For example, if two entrants share 1st place on 100 points, the entrant with the lowest margin score will be the winner.

If entrants cannot be split using these methods, then the prize will be split. The prize splitting process will be such that where there is a tie for any place (first place, second place etc) the prize for that place and prize for the next lower place will be combined, and each of the tied winners will receive an equal split of the combined prize. For example, where there is a tie between two winners for the First Prize, the First and Second Prizes will be combined and each of the two winners will then receive half of the combined prize.

9. Prizes

Final prizes apply to all entrants in the contest. These prizes include:

- 1st Place - \$1000
- 2nd Place - \$300
- 3rd Place - \$200
